PRESIDENT'S  
COMMISSION ON WHITE HOUSE FELLOWS  
THE WHITE HOUSE

June 26, 1973

Dear General Walters:

Thank you for meeting and sharing some of your thoughts with the Fellows.

On a personal note, I will start teaching as a visiting professor at Georgetown University on September 1. The title of the course will be "Soviet Foreign Policy in Latin America." In order to obtain original data, I am writing Dr. Volsky whom I met while in Moscow for his perceptions of what will happen in Latin America. What are your feelings about my writing such a letter?

Respectfully

Dear Dr. Volsky:

Georgetown University has given me the honor of being one of their visiting professors for the coming year. Portions of the course that I will be teaching will deal with Soviet Foreign Policy in Latin America, with particular emphasis on the Soviet attitudes toward the military.

The course would be incomplete if it did not have an essay or an introduction piece from you. Would you consider writing something in the order of ten to twenty pages on what you perceive is the situation in Latin America now in the 1970's and your prognosis for Latin America in the 80's?

If you happen to be in the United States some time this year, I hope you will consider being a guest lecturer in my seminar course.

I hope you are in good health.

Respectfully,

Bernard Loeffke  
Director
